## DETAILED ACTION

### *Status of Claims*

1. Claims 1-24 and 26-38 are cancelled. Claim 25 is pending and under examination.

### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 25 is rejected under 35 U.S.C. 103(a) as being unpatentable over Krieg, A.<sup>1</sup>

In response to the rejection, Applicant amended the claims. The following is a rejection in view of Applicant's amendment.

The claim is directed at a method for modulating the immunostimulatory effect of an immunostimulatory oligonucleotide compound by introducing a nucleoside 3'-3' linkage.

Krieg et al. teaches immunostimulatory oligonucleotides. Krieg et al. also suggests the substitution of the natural phosphodiester backbone that links nucleosides with 3'-3' linkage to stabilize the oligonucleotides. [Page 13, in particular.] Thus, at the time the invention was made, it would have been prima facie obvious for one of ordinary skill in the art to use a 3'-3' linkage with the oligonucleotides of Krieg et al. One of

ordinary skill in the art, at the time the invention was made would have been motivated to do so to stabilize the oligonucleotide. One of ordinary skill in the art, at the time the invention was made, would have had a reasonable expectation of success for doing so because the use of 3'-3' linkage to stabilize oligonucleotides is routinely practiced in the art.

### ***Conclusion***

4. No claim is allowed.
5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
